

You Are Invited To A

Home Septic System Workshop

Are you new to living with a septic system? Hearing conflicting information about what is safe to put down your drain? Questioning your responsibilities under the Cesspool Phaseout Act? Join us to have your questions answered by Water Quality Specialist Tim Cranston of the Town of North Kingstown as well as local experts. Topics will include:

- Proper septic system maintenance
- Choosing a maintenance contractor
- Buying and selling your home with a septic system
 - The Community Septic System Loan Program

Though a similar program was offered in 2016, this year's event will include more time for questions and answers. Proper septic maintenance protects your home's value as well as the safety of your drinking water. We hope you will be able to join us!

Wednesday, September 20, 2017

6:00 pm

Scituate Senior Center

1315 Chopmist Hill Road, Scituate, RI

FREE, but please register at

landwaterconnection.org or call 401-934-0840
