

ELEMENTARY CLASSROOM VISITS

JOIN US FOR AN IN-CLASS VISIT WITH OUR ENVIROSCAPE WATERSHED MODEL! STUDENTS WILL LEARN ABOUT NONPOINT SOURCE POLLUTION AND HAVE A CHANCE TO PRACTICE WHAT THEY'VE LEARNED. THIS VISIT CAN BE CONDUCTED AT ANY POINT IN 2023-2024, BUT PAIRS ESPECIALLY WELL WITH THE WATER AND CLIMATE SCIENCE UNIT. IT IS ALSO GREAT PREPARATION FOR PARTICIPATION IN THE SRWEP ANNUAL POSTER CONTEST.

COVID PRECUATIONS: OUR "STANDARD" PRESENTATION DOES INVOLVE STUDENTS TOUCHING COMMON MATERIALS (THE WATERSHED MODEL). IF YOUR SCHOOL'S POLICIES DO NOT ALLOW THIS, AN ALTERNATE ACTIVITY CAN BE PERFORMED THAT DOES NOT INVOLVE SHARING MATERIALS. THE PRESENTATION CAN BE CONDUCTED OUTDOORS IN WARM MONTHS, OR INDOORS YEAR-ROUND. PRESENTERS ARE VACCINATED AND WILL WEAR MASKS IF REQUIRED. WE ARE HAPPY TO ADAPT TO ANY PRECAUTIONS THAT YOUR SCHOOL IS TAKING AT THE TIME OF THE PRESENTATION.
